Vetting
- Verificatio...
- Inclusivit...

1: SAFETY
- "Walk Me Home" -> Get another user to walk you home if you feel unsafe
- Panic Button -> LOUD and text your location to your emergency contacts
- Rewarding good behavior -> Award "safe" points to places and people who made you feel safe

2: INFORMING
- Hotline on speed-dial -> Connecting more easily to hotlines to help you
- Trained Therapist Acess -> Therapists in your area and their info
- Community Awareness -> No more "unsafe steps in your staircase"

3: VETTING
- Inclusivity Centered -> Everyone deserves safety!
- Verification Possibilities -> Ask people about someone.

BSAFE

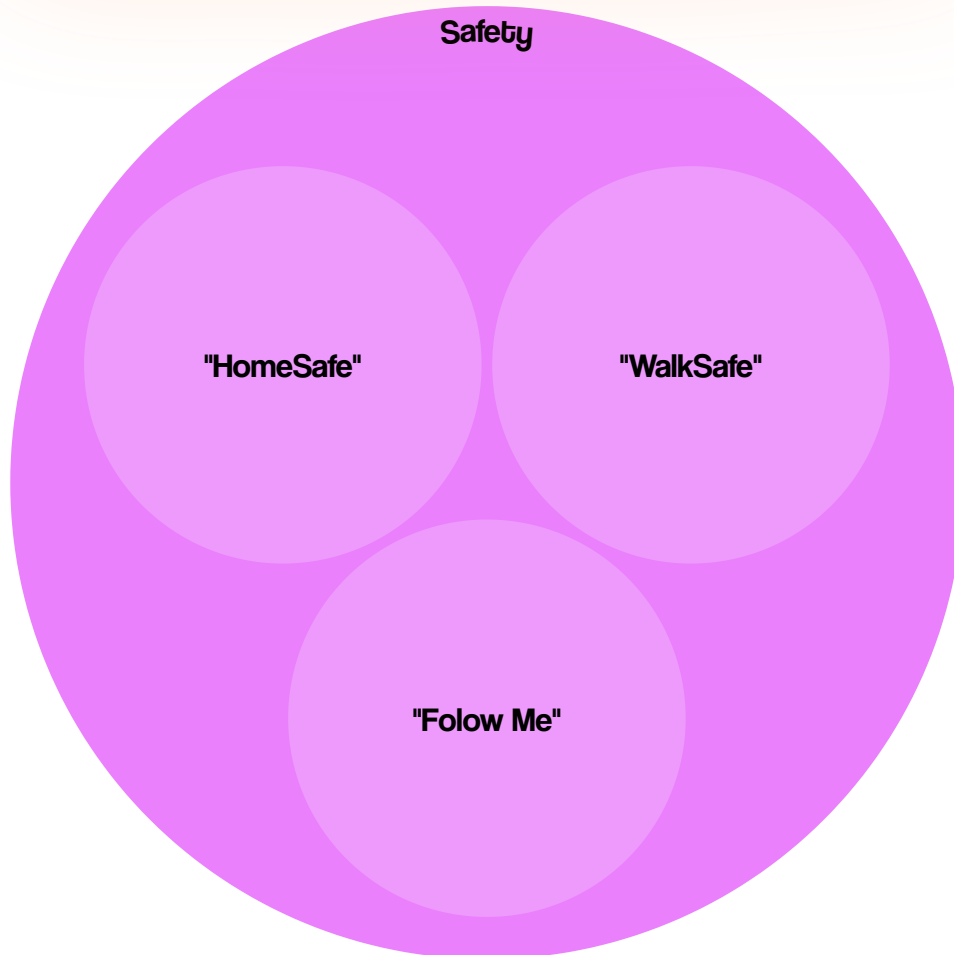

Safety

"Panic Button"

"Fake Call"

Geolocalisation

1: SAFETY

- Panic Button -> Start recording and providing geolocalisation
- "Fake Call" -> Simulates a call to get out of a bad situation
- Geolocalisation -> The best on the market

WALKSAFE

Safety

"HomeSafe"

"WalkSafe"

"Folow Me"

1: SAFETY

- "HomeSafe" -> No geolocalization, just a time estimate-based emergency call
- "WalkSafe" -> Geolocalization towards somewhere
- "Follow Me" -> Geolocalization, no set destination

SAFE & THE CITY

1: SAFETY

- Route Planning -> Real-time knowledge of the safety of the route
- SOS Button -> Record location, sound, etc
- Stats -> Data records to help fight street dangers
